

Quick and Deep Creek

W. L. Paddon has lumber on the ground for some extensions and improvements.

R. McGregor is putting up the ice house at Quick and filling it, for the benefit of the cream shippers. If the demand was only extensive enough, at the present prices for fat, it would be the best thing we have heard about from products since the balloon came down.

Thompson and Wilson are getting quite a pile of ties to the track now.

It is becoming quite common to see a car spotted for loading out.

A good number of the farmers are putting up ice this winter. How about a little co-operation next season, and getting a few tools?

Thank Heaven! Toronto and Montreal are getting fed up on taxes as well as the Quick grouchers. Misery likes company.

All the farmer tie hackers and contractors are drifting back home again. Hope they had a profitable season.

One of our farmers, who keeps books, has figured up his season's business. On a 40-acre tract his expenses were just \$125 more than receipts, showing a loss on the operating account. The only thing that let him out at all was the fact that he paid himself the wages and thus he did not farm at a complete loss.

Eggs down almost 50 per cent and Easter not here yet.

We are very glad to note that the Dome still shows an opportunity for being hopeful. We feed them and many more.

We are rather nutty on co-operation, but our ideas of it include everybody—not farmers alone.

Wasn't the editor nice, and didn't he let us down easily, others?

We hope that detective who left Smithers for Vancouver will let us know how Vancouver put over on Rupert and the interior.

With so many dead rabbits out isn't it going to be rather unsafe to drink surface water next spring? What would be the possibilities of a well drill where water is hard to get?

The rabbits must account for at large flock of crows that has been around this winter.

We could use that platform and warehouse nicely these days. How about it?

New camps are now being built near Skeena Crossing for Griffin and as soon as ready will be occupied by the summer cutters.

OVERHEARD AROUND NEW HAZELTON

It is understood that within a week or so Hon. A. M. Manson, attorney-general, will visit the north and after looking over the ground will announce which riding he will stand for in the forthcoming election—his old riding of Omineca or the new riding of Skeena.

Another big shipment of cedar poles and piling is being made from New Hazelton this week.

T. T. Dunlop, district engineer, was in town the first of the week, but so far as road work was concerned he said he knew nothing, except that the appropriation this year was the same as last year. He could not say where any money would be spent.

Numerous travellers were in town this week adding to the cost of living.

V. C. Clauson, who has been gathering data on the mineral resources of the northern interior for several months, spent several days here this week with Duke Harris and together they visited several properties.

Frank Purvis arrived last week after a three-months' honeymoon in California. Mrs. Purvis went on to Prince George to visit her mother and returned this morning. Mr. and Mrs. Purvis have taken Paddy Ardagh's house and will be here until the Magoffin contract west of town has been finished.

Duke Harris is a patient at the hospital, having broken the small bone of his leg. He was on his horse on Wednesday afternoon and the animal slipped and Duke followed suit, with painful, although pleasant, results. It's an ill wind that blows no good, although it will be about six weeks before Duke hits the hills again.

The C. G. I. T. group of the Smithers Union Church won the pennant this year for Northern B. C. Last year it was won by New Hazelton.

Chief Engineer Burbank of the C.N.R. was a business visitor to New Hazelton on Wednesday.

Many Cedar Poles to Haul

Mike George will this week finish hauling the season's cut of cedar poles from the bush to the road. He has 2,700 pieces and as soon as the roads are fit to use several teams with wagons will be put on to haul to the depot. During the winter he was able to get only a little over 700 pieces hauled on sleighs and only 1000 ties. Nearly all the ties will have to stay in the bush until the snow comes again next winter. Mike will be prepared to carry on operations next fall and winter on a larger scale than ever.

'Scottish' Comes to Grief Within Sight of Home

Most of the people in Prince Rupert are agitated over the wreck of the Canadian Scottish, one of the two large ships built at the Prince Rupert drydock. First there is the natural regret that any boat should be damaged, but that the damage was done in the Prince Rupert harbour adds very materially to that regret. There is also regret that it was a Rupert built boat that was wrecked, and the fact that a Vancouver pilot did the wrecking does not detract from the regret.

The Canadian Scottish recently finished a world tour and went on the dry dock at Rupert for examination. She was found to be in prime condition. She then took on a cargo of a million feet of lumber for export. A Vancouver pilot named Brown was sent up to take the Canadian Scottish out of her own harbor, a harbor that hundreds of people in Rupert could successfully take any ship out of. But the Vancouver pilot was unable to make the passage and piled her onto the rocks off Digby Island, just a mile and a half from her wharf.

It was, according to reliable information, an ideal night for navigating and the lights were all burning. Every rock in the harbor is charted and there is room for half a dozen large steamers to pass in very deep water just where the Scottish went on the rocks.

The damage to the ship will cost over a hundred thousand dollars to repair, and the boat will be out of commission for several months.

There will doubtless be an investigation, and the Prince Rupert people would like to learn, also, why Vancouver pilots are sent to take boats in and out of Prince Rupert harbor, a harbor that a boy navigator can successfully navigate and without calling himself a pilot.

There is general regret felt among the pioneers and prospectors of the Northern Interior owing to the death of Joseph Fisher, which occurred in Smithers last Sunday. He staked and developed the Fisher claims on Hudson Bay mountain a dozen years or more ago. The funeral was held on Tuesday and interment took place at Smithers.

Those from the interior who took in the opening of the new Masonic Hall in Prince Rupert last Thursday night were: W. S. Henry, J. Mason Adams, Geo. Raymond, Hans Olson, Dr. Hankinson, Smithers; C. H. Sawie, New Hazelton; Dr. H. C. Wrinch, Jas. Turnbull, Hazelton; Thos. McCubbin, Pacific; E. T. Kenney, Terrace.

Usk

Skeena's Industrial Centre

M. Hatt, of Hatt Bros., Terrace, was a visitor on Friday.

A. H. Edwards, manager of the Canada Products Co., returned from a round trip to Edmonton. Supplies are coming in and a resumption of building operations has been made.

J. Manion, late foreman for R. H. Bourke, left on Friday.

D. W. McIntosh is leaving Usk for Juneau, Alaska, from where he and other companions will take a long snowshoe trip overland into the hinterland of the northern part of the province.

Rev. W. J. Parsons, of Terrace, gave an illustrated lecture here on Thursday.

Mr. and Mrs. R. H. Bourke took a visit to Terrace and back on Saturday.

Geo. W. Armstrong took in the towns along the Skeena, with a view to starting another paper at Terrace. Mr. Armstrong is an old newspaper man of Lower B.C.

P. R. Skinner and B. L. Woodward made the round trip to Terrace early in the week.

Land Lines to Go?

The Free Press says that the government is to abandon the Yukon Telegraph line from Ashcroft and substitute a radio service with broadcasting stations at Edmonton and elsewhere connecting with the sending stations now existing at Dawson and Mayo. The cost of the telegraph service is about \$200,000 a year.

The Prince Rupert Board of Trade are considering a resolution to be forwarded to the Prime Minister at Ottawa to combine the Canadian National and Dominion Telegraph services between Fort Fraser and Prince Rupert and to substitute the Yukon Telegraph line by an aerial service. It is estimated the savings would amount to at least \$75,000.

The dry dock at Prince Rupert has secured the job of repairing the Canadian Scottish, which went on the rocks a short time ago. It is the biggest repair job yet undertaken at Rupert. The ship will be out of commission about two months.

Dittmer & Robb, Burns Lake hardware merchants, are having the second floor of their building converted into offices. McGill & Tufts will occupy one of the new offices.

The Houston fall fair will be held on September 18th this year and the officers and directors are now busy with their plans.

Albert Mercer was taken to the Hospital on Thursday suffering from a severe injury received while loading poles.

TELKWA TALES

News from the Hub of Bulkley Valley

Owing to the warm spell and lack of snow, tie hauling has come to a sudden stop.

Messrs. Affleck and Haig left on Sunday morning's train for Edmonton. When mining opens up in this district again we hope to see them back.

The Athletic Club is having a dance on St. Patrick's night. There will be a little variety introduced during the refreshment period in the form of Irish songs, etc. If we haven't anything green to wear let's all go anyway, and just look natural.

There is the odd case of measles bursting forth as yet, but the fad has pretty well run itself out.

Const. Fairbairn made one of his periodical trips to Topley during the week.

The old adage of "water, water everywhere, but not a drop to drink" is the order of the day in Telkwa as a number of wells have gone dry.

Miss Thompson entertained a number of friends on Friday evening.

Rev. W. Mawhinney has been abroad from Telkwa for a couple of days visiting some of the outlying districts.

We are sorry to learn that Mrs. Noonan has been very ill.

Miss Mary Heal is laid up with the measles.

All the ice houses have been filled and we are now waiting for the beer and hot weather.

Mr. Brown is selling out his household effects on Saturday and expects to leave for the Fraser Valley in the near future.

Big Lantern Slide Lecture

On Wednesday night, March 19th, Rev. Victor Sansum will give a lantern lecture in the Hazelton Methodist Church on "The Church's Work in the Mission Fields in Canada." There are 180 slides of the best type, showing the many problems the Church must solve in making good Canadian citizens out of the thousands of immigrants from every country in the world. Addresses will be given by Dr. H. C. Wrinch, Mr. Tomlinson and possibly Rev. M. W. Lees, of Smithers, and a vocal solo will be contributed by Mrs. A. E. Falconer. On the following night the same lecture will be given in the New Hazelton church. This promises to be a very interesting and profitable evening, and everyone should make it a point to be present. The lecture will be a timely one, in view of the fact that the following Sunday, March 23, has been set aside as "Missionary Sunday" throughout Canada.

Country vs. City Press

Turning from the city news-
papers to the rural exchange
which comes to our desk, says
the Lake Crystal Tribune, is like
stepping from the siums full of
vile odors into an old-fashioned
garden sweet with honeysuckle.
The pages of the big dailies are
so full of murder, thievery, and
immorality, and the breaking up
of homes by infidelity and selfish-
ness that the better news is ob-
scured. One puts the paper aside
with a feeling of depression and
heartache that the world is so
full of such terrible and unhappy
things.

Then, picking up the papers
that record the happenings of the
smaller towns around us, one
gains renewed faith in life. Here
are set forth only that which up-
lifts a community—the activities
of the business men, the church
news, the civic good accomplished
by the women, school items, the
happy social gatherings of the
people, the marriages, births and
deaths, farmers' items and all
the thousand and one daily occur-
rences that make up the simple
annals of the great common people
who are really the foundation of
this broad country of ours.

Scandals are seldom published
in the country newspapers, but
if it so happens that decency de-
mands it, the uglier details are
omitted, or are given a kindly
touch that is widely different
from the unfeeling publicity of
the city press. No wonder. The
offenders may be our neighbors,
or people we have rubbed elbows
with all our lives. They are real
human beings, while to the great
dailies they are merely grains of
a sort that are ground out hourly
in their newsmill.

Nearly a New Paper

Terrace nearly had a second
paper. Geo. W. Armstrong ar-
rived from Quesnel and Prince
George a couple of weeks ago,
and started in to establish a new
paper in opposition to the Terrace
News, providing the news did
not quit. But the News did not
scare worth a hoot, even encour-
aged the newcomer to keep com-
ing, but during last Friday Mr.
Armstrong decided to reverse his
plans and notified the editor of
the News that he was going to
the city to work. While we re-
gret Mr. Armstrong's departure,
we cannot help but believe that
his decision was a wise one.
There are very few towns that
can support two papers, and it
takes a good deal of capital, nerve
and labor to carry one paper suc-
cessfully in a pioneer community.
Mr. Armstrong found that the

cost of opening up a plant, of
building up a business, of estab-
lishing a connection with the out-
side world, was much greater
than the revenue would warrant.
Terrace is already supplied with
a newspaper which is superior in
every way to what a new man
could give for a number of years.
It is the duty of Terrace business
men to support the paper now in
the field if their desire is to have
newspaper publicity.

A good newspaper helps make
a good community, but the editor
needs the co-operation of the
community to build a good news-
paper.

This is the question: is it better
to be independent and fail or to
co-operate and succeed.

Observations of a Farmer at the Institute Meet.

Impressions of an observer of
the farmers' co-operative move-
ment:

Yes, I was at the meeting. I
was impressed by the attendance
and by the way the men planked
down their fees, although they
knew little of the probabilities of
getting their money's worth. They
seemed to be agreed that it
was high time for a showdown,
and I agree with them.

Outside of the fact that a start
has been made, the meeting was
not promising in many ways, but
I trust the situation will show
more forcibly the meaning of co-
operation. The meeting was a
very good illustration of the con-
dition of the farming industry at
present—it certainly was the an-
tithesis of organization. It may
be well used as an illustration of
what a co-op. should not be.
Fancy an unorganized army going
into action. The result would be
bedlam and fatal in every way.

As I wish my criticisms to be
constructive, they will also be
rather lengthy. They will also
be more or less jumbled, as I have
not the time to arrange them in
the proper sequence, but trust
that when sifted out thoroughly
may be found to contain a little
grain among the chaff. Here is
something I hope will be to the
point:

"Neighbor, this co-operative
movement needs your support."
"Well, I don't know. It seems
a long time to tie up for."
"How long have you farmed
here, neighbor?"
"Nearly twenty years."
"Are you satisfied you have
got a fair return for twenty years
hard work under your individual
marketing?"

"Well, hardly!"
"Do you want your boys to face
twenty years of such work with
no more prospect of return?"

"GIVE ME THAT PEN!"
(With apologies to E.F.R.)
Before proceeding further I
would remark that my more or
less considerable experience would
call for a few moments of con-
sideration of business routine.

Observations of Institute Meet.

(continued from page 2)

If the department books are not adequate I would secure some that would meet the requirements even if it were necessary to consult a competent accountant, as it would save future trouble and expense. This leads us to ask who gets all the 5 per cent. commission and who pays for these other very necessary items.

I could point out some safeguards to the Institute that would also benefit the secretary-treasurer later, but that is up to the members.

There are said to be some faults in the previous Co-op. forms of accounting, and I would take this lesson to heart and do it now.

These things properly carried out, as all business should be, will require skill, knowledge, supervision and money.

No that has evidently been given to them, and upon going into the matter it will be found necessary or advisable to spread out and take in all the districts in the northern interior. This being the case, why not get down to brass tacks now before spring and as soon as we are able to get our ideas into working order pass them along the line and have everybody get on the job. It means success, or failure, as I hope to demonstrate to your satisfaction presently.

To digress: It would be a blessing to the secretary and all concerned, to save labor and everybody's time, if all resolutions were presented in writing. It would be taking the notes at the time and they can be thrown away, or placed on file, or tabled, and those passed could be copied later into permanent records.

This local, in conjunction with

all other active locals, could appoint a few committees to study and report on some very vital questions. Try Edison's and other business men's systems, and let every member into the game; put them to work. You cannot tell who may have some really bright ideas under his hair. My idea of vital matters suggests the following committees: Poultry, live and dressed; Butter, dairy and creamery; Eggs, good and bad; Hay and Timothy Seed; Pork, live, dressed, cured; Beef, ditto; Vegetables, all kinds; Fair Prices, Bulletins, Publicity and Propaganda; Co-op. with other locals; Program Committee, for educational purposes; Legislative; Freight Rates; Grades and Standards; Uniform Breeds; Present and Future Markets.

This would do for a start, but fancy one little local trying to get away with it! It means a real organization to get any results, to save duplication of expenses, and to cut down overhead. Then a proper organization could talk to the government, the business men and the Rly. Commission, and the banks, and get some attention, whereas now we are a joke and laughing stock. No offence to them, as I believe we merit their scorn until we can show them. Get something that has a punch to it—and you can do some of the talking. If you have a "royal flush" you don't need to bluff.

If an organization of this kind were put over it would be worth our time, and every farmer would be begging to get in on the ground floor.

There is one unfortunate feature about co-op. Most business men think they should knock instead of getting under and boosting. That seems very shortsighted. Would they not like to get standard, guaranteed, graded

produce at fair standard prices? Would they not like to see the peddling and trading cut out entirely? Would they not prefer to buy and sell for cash? Possibly they can do without the farmers' business entirely? Well, it is a darn poor rule that works only one way. Think it over.

I have only just touched a few spots very lightly, and as briefly as I could; and don't expect any results. I can stand it another twenty years if the rest can, but I have tried to add my mite to the good work, and trust others will proceed to do as much—with better success, I hope.

FARMER JONES.

Kalum Lake Mine

The Kalum Lake Mines, Limited, capitalized at \$75,000, is a Terrace company and all the stock is so far held by local people. Enough money has been paid into the treasury to enable the company carry on development work on a larger scale than in the past. There are now several hundred tons of ore on the dump that assays fairly high, and if ever the much-talked-of smelter is built in the north, this ore will be immediately shipped at a profit. In the meantime efforts will be made to develop enough ore for shipment that will stand the excessive freight rates to existing smelters. Supplies have already been shipped out to the property for the new work.

THE MINERAL PROVINCE OF WESTERN CANADA

HAS PRODUCED MINERALS VALUED AS FOLLOWS:—

| | |
|-------------------------------------|---------------|
| Placer Gold | \$ 76,542,208 |
| Lode Gold | 109,647,661 |
| Silver | 59,814,266 |
| Lead | 51,810,891 |
| Copper | 170,723,242 |
| Zinc | 24,625,853 |
| Coal and Coke | 238,289,565 |
| Building Stone, Brick, Cement | 36,605,942 |
| Miscellaneous Minerals | 1,358,839 |

Making its mineral production to the end of 1922 show AN AGGREGATE VALUE OF \$769,418,462

The striking progress of the mining industry in this province is strikingly illustrated in the following figures, which show the value of production for successive 5-year periods:

| | |
|--|---------------|
| For all years to 1895, inclusive | \$ 94,547,241 |
| For five years, 1896-1900 | 57,607,967 |
| For five years, 1901-1905 | 96,507,968 |
| For five years, 1906-1910 | 125,534,474 |
| For five years, 1911-1915 | 142,072,803 |
| For five years, 1916-1920 | 189,922,725 |
| For the year 1921 | 28,066,641 |
| For the year 1922 | 36,158,848 |

PRODUCTION DURING LAST TEN YEARS, \$339,280,940

Lode-mining has only been in progress about 33 years, and not 20 per cent. of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing lands are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than any other province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute titles are obtained by developing such properties, security of which is guaranteed by crown grants.

Full information, together with mining reports and maps, may be obtained gratis by addressing

The Honourable The Minister of Mines
VICTORIA, BRITISH COLUMBIA

Why Ford Predominates

A Triumph of Mechanical Simplicity

The Ford is without superfluous parts, yet has everything needed for efficient operation.

Like all great engineering accomplishments, it has progressed through simplification—the reduction to fundamentals.

This process of simplification has brought into being many of those distinctive features which are found exclusively in Ford cars. The Ford planetary transmission and three-pedal control are among those features.

Experts agree that they are ideally suited to the small, light car.

Another feature is the Ford magneto, so remarkable in principle and so successful in practice that a complete unit was recently presented—by request—to the Smithsonian Institution.

There are many such features, but these are sufficient to indicate the sound foundation upon which engineers have pronounced the Ford to be a triumph of mechanical simplicity.

Successful Whist Party

The court whist party held under the auspices of the G.W. V.A. Ladies' Auxiliary was a most enjoyable affair. The people responded very generously and the whist tables numbered fourteen. Miss Dobey won ladies' first prize; Mr. Hatt won gents' first prize; ladies' consolation prize went to Mrs. Monckton, and gents' consolation to Tom Lever. Refreshments were served by the Auxiliary after which dancing continued until long after midnight. Mrs. Attwood furnished the music. The Auxiliary has decided to hold a whist drive and dance the first Friday in every month, so keep the date open.

Mrs. Howard Wilson is taking over the dining room at the Tourist Hotel and will cater to the Terrace people for meals. Mrs. Wilson will make a specialty of Sunday dinners and asks for a share of your patronage.

J. C. Bingham, of Vancouver, was a Terrace visitor this week.

J. Hanson, of Alderson, Alta., was in Terrace on business this week.

L. G. Skinner, of Copper City, was a business visitor in Terrace on Monday.

Mrs. J. Raven left for Prince Rupert on Monday and will spend a few days there with her daughters, Mrs. H. Creelman and Miss Rose Raven.

A. L. Wilson made a business trip to Prince Rupert the first of the week.

Percy Skinner, of Usk, was a Terrace visitor this week.

There is an epidemic of colds going the rounds in Terrace, several have been very ill.

Mrs. Hipslev, of Lakelse, was a visitor to Rupert last week.

Miss Etanda Marsh arrived on Friday night to spend the weekend at home. She returned to Prince Rupert on Sunday.

R. L. Eaton, Lakelse hacherv, was a passenger on Monday's train to Prince Rupert. He returned on Thursday.

Mrs. Fred Fowler was a visitor in Prince Rupert on Friday.

Olof Hanson arrived in Terrace on Monday.

Mrs. Lanfear, of the Hill Farm, was a passenger to Prince Rupert on Monday's train.

J. M. Hockin, of Mc & Mc, Vancouver, was calling on the merchants this week.

The Ladies' Altar Society of the Catholic Church met on Wednesday the 5th at the home of Mrs. Annie Ross.

The Ladies' Auxiliary of the G. W. V. A. held their regular meeting on Tuesday the 4th in the Veterans' Hall. There was a good attendance and much work was accomplished.

Const. R. Gibson, of Port Es-sington arrived in Terrace on Monday on official business. He returned on Wednesday.

Mr. and Mrs. Fred Aiken were visitors in Prince Rupert for a few days this week.

Mrs. J. Kirkaldy was a passenger on Wednesday's train to Prince Rupert.

Mrs. (Capt.) Colthurst and young son left for the Hazelton Hospital Tuesday. Mrs. Colthurst has been indisposed for several days and needed hospital attention.

Judging from the bushels and bushels of fresh eggs that come into our stores it looks as if it was quite profitable to own a flock of the right kind of hens.

Miss Annie Cousins left for Smithers on Friday evening for a week's vacation with her friend, Mrs. Burnie.

Terrence residents would certainly welcome a good dentist as so many children need attention to their teeth and many adults have to make a trip to Prince Rupert to visit a dentist.

Rev. W. J. Parsons was in Pacific, Hanall and Usk this week, where he delivered illustrated lectures on "Where we got our Bible." Rev. Parsons returned to Terrace on Friday and gave the same lecture in the Presbyterian church on Friday evening.

F. C. Bishop is clearing his two town lots opposite the Progress hall with the intention of erecting at once a fine new residence and power house for the electric light plant. It looks in Terrace as if the carpenters will have plenty of work for a few months at least.

Mrs. Ayliffe and daughter, Dorothy, were passengers on Thursday's train en route to Vancouver for a few weeks' visit before going on to Ladysmith, where Mrs. Ayliffe will spend the summer. She will not return to Terrace until in the fall.

The News is \$2 a year.

Woodcock

Robt. Dixon made a business trip to Prince Rupert on Friday, returning Sunday morning.

F. A. Goddard, of New Hazelton, visited Woodcock Saturday.

Mr. and Mrs. Harvey Doll and family also Mr. and Mrs. Jack Thompson and family, of Cedarvale, spent Sunday in Woodcock visiting Mr. and Mrs. W. C. Little.

Messrs. Nelson and McLeod, of Prince Rupert, spent the weekend at Woodcock, completing their plans for the installation of a small electric plant at Boulder Creek on their ranch, which will supply this district with electric power. They expect to get this work started very soon and also prepare for the spring work on the ranch, getting a larger area under cultivation than last year.

Geo. Hastley is still doing good work in the logging business. Having completed an order for 25,000 feet for Mr. Tomlinson's mill at Cedarvale, which are to be floated down the Skeena, he is now getting out poles.

The roads are getting muddy. These beautiful, warm, bright days are showing their effect on the snow, which will soon be a memory, but evidently it is hard to please some people. They never seem to get enough of a good thing, even snow. It reminds one of that little 'classic':

Man is something of a fool,
For when it's hot
He wants it cool,
And when it's cool
He wants it hot;
Always wanting what is not.

A party looking for a cow to buy, was a very much disappointed visitor here this week. The people in this locality are becoming firm believers in "the cow, the mother of prosperity," and are on the lookout themselves for more good cows to buy. There are no cows for sale in the Woodcock district.

Rev. T. D. Proctor, of Hazelton, held service in the schoolhouse Saturday evening and at the close gave a very interesting and instructive little entertainment with lantern slide pictures of interesting views of different parts of the world.

What might have been a very serious accident happened on Thursday evening, when little two-year-old Paul Borsuk had his toe badly crushed while out playing. He was taken to the Smithers hospital for medical attention, where he is reported to be doing as well as can be expected.

Jack Nutt, of Cedarvale, was busy at W. C. Little's forge on Saturday, modelling for Mr. Curran's team of oxen a real old-fashioned yoke. Jack professes to be some "ox skinner" or "bull puncher," no tin lizzie for him.

Have you read the advertisements in this week's paper? Store news is just as important to you as the local news. Make a practice of reading the advertisements.

Terrace

Mrs. W. France, of Lakelse, went to Prince Rupert Thursday.

Rev. Father Allard returned to Terrace on Thursday night from his monthly trip up to Stewart. Father Allard says more snow has fallen in Stewart and vicinity this year than has fallen for many previous years. From snapshots which he had taken while there can be seen the larger homes practically buried in snow.

Bruce Smith, son of W. E. Smith, celebrated his sixth birthday on Sunday, March 2. Bruce treated his guests to a real chicken dinner and last but not least a birthday cake with six wee candles. The guests were Freda Hall, Margaret Young, Lorna and Ina Smith, Arthur and Wilfred Young, Jim and Tom Burrison and Bruce. Bruce says he likes birthday parties and wishes mother would give him one real often.

See Mrs. J. Kirkaldy's advertisement in this issue. We are pleased to see that we are to have a ready-to-wear store as it will be a drawing card to our town and will help in a measure to keep a part of the money spent for such merchandise in town. Much success to Mrs. Kirkaldy in her new venture.

The Literary Society of the Kitsumgallum school had a very fine program on Friday afternoon, many visitors being present which will encourage both teachers and pupils. The next program will be held in three weeks and an invitation is extended to all interested.

The annual meeting of the Terrace Athletic Club will be held in the G.W.V.A. hall on Tuesday, March 18, at 8 o'clock. Election of officers and many matters of local interest will be discussed, plans for the fostering of sports will be outlined, so come and help keep Terrace among the live wires. We don't want people to class us as "dead but walking around."

B. Agar is breaking ground for a new hardware store and two offices to be erected on the corner across from the bank on Lakelse avenue. The building will be rushed ready for occupation in about six weeks. It will be 40x42 and the main part will be occupied by Mr. Agar, who opens a hardware and ranchers' supply store and the two offices will be leased to local parties.

The 'raffle under the auspices of the G.W.V.A. Ladies' Auxiliary will be held on the evening of April 25 at the concert and lecture given by the G.W.V.A. members and Auxiliary. The prizes are good ones and the drawing will be worth while.

Fred Hall started on a hike to Kalum Lake Wednesday morning accompanied by Fred Nash and will do some survey work in the lake district. Mr. Hall contemplates erecting a cabin for the Remo Lumber Co., and will

SHILOH STOPS THAT COUGH

a pure vegetable laxative tea. It tones up the stomach, cleanses the blood and stimulates the liver. Take three times a week for three weeks—everyone needs a spring tonic. 30c and 60c.

The Hazelton Hospital

The Hazelton Hospital issues tickets for any period at \$1.50 per month in advance. This rate includes office consultations and medicines, as well as all costs while in the hospital. Tickets are obtainable in Hazelton from the drug store; from T. J. Thorp, Telkwa, or by mail from the medical superintendent at the Hospital.

Found Magazine for rifle found on road between Hospital and Two-mile. Owner can get same at W. J. Larkworthy's by proving property and paying for this advertisement. 35-

build it near the Cobb Lodge on the lake shore. Several have plans for summer cabins out at the lake, which will soon take on the appearance of a real summer resort.

Ed. Kenney went to Prince Rupert on Thursday to attend the opening of the new Masonic Temple in that city. Mr. Kenney returned on Friday night accompanied by Mrs. Kenney and Margory, who have been on a short vacation, visiting relatives in Prince Rupert.

Mr. and Mrs. Gordon Sparkes and young son, left on Thursday for Prince Rupert, and sailed Friday morning for Vancouver, where they will probably take up residence. If Gordon does not find a suitable position in Vancouver, he will go to Seattle. Mr. and Mrs. Sparkes will be missed by their many friends as Gordon was always ready to help out with the music for the dances. Terrace is losing so many of its young people of late.

Looking for Road

D. Bergen, provincial government engineer and party arrived in the district Friday night and will endeavor to locate a feasible and economical route from the main trunk road along the Skeena to Prince Rupert. The big object is to get away from the many miles of rock work the all-Skeena route necessitates, and if possible, get a route that will also develop some local traffic. The road will pass through Terrace and on to the Naas and down that river to the coast, at least that is the most favored route at present. Mr. Bergen is to prepare an

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act, the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

CANADIAN NATIONAL RAILWAYS
Colonization and Development Department

The work of this department is being rapidly extended throughout Western Canada to be of the best possible service to the public, and through its special representatives in the East, in Great Britain, Norway, Sweden, Denmark, and other European countries, it will be able to bring to Canada large numbers of immigrants, male and female, who in a short time should become permanent and desirable settlers. The great obstacle in the past has been the uncertainty of immediate employment for the new arrival and farmers can assist colonization work by employing their help through this channel, and if possible BY THE YEAR. The work is done without charge and no advances are required for transportation or for any similar purpose. All information given is used for the purpose of informing the settler requiring work only.

HAZELTON NOTES

Protect your interests and create an estate. See Wm. Grant's Agency.

Mrs. Brickenden returned from a visit to Kitwanga this week and spent a few days in town with Mrs. Leverett.

Indian Agent Ed. Hyde was a visitor to Smithers the first of the week.

C. W. Dawson made a business trip to Rupert on Wednesday.

St. Patrick's dance Monday night. All are invited.

The Smithers Badminton Club has extended an invitation to the Hazelton players to visit Smithers on Saturday, the 21st. The executive committee met yesterday to deal with the matter.

Dr. H. C. Wrinch paid a professional visit to Usk on Thursday.

Mrs. Tomlinson, sr., leaves today to visit at Cedarvale

Jos. Benson returned home on Thursday morning from Priestly, where he spent the winter.

On Monday, March 17, St. Patrick's day, the W. A. of St. Peter's Church will serve their Annual Tea at the Mission House from 3 to 6 p.m. There will also be a stall for home sewing, candy, etc. An opportunity will be given for every one to wear the shamrock.

On Monday evening the residents of Kitwanga enjoyed the lantern lecture of "a trip around the world" which has been given at Hazelton and Woodcock.

Services will be held as usual in the St. Peter's Anglican church next Sunday, March 16, as follows: morning prayer, 11 a.m.; Sunday school, 2 p.m.; Native service, 3 p.m.; evening prayer, 7.30 p.m. Rev. T. D. Proctor will preach at all sermons. Everybody is heartily invited to attend.

Harold Matthews, formerly of the Hudson's Bay staff, returned to town on Thursday and has joined R. S. Sargent Limited, and will be connected with the Smithers store.

After having visited Vancouver, Seattle, New Westminster, Victoria and Nanaimo, it is good to be back in Hazelton which has them all beaten for scenic beauty and climatic combined. Many places which are almost dead are optimistic that they will come to life again. Let us show a little more of this optimism around Hazelton and district, and look to the future.—Rev. T. D. Proctor.

Tennis Club Annual

On Tuesday evening there was a large attendance at the annual meeting of the Hazelton Tennis and Badminton Club. A good deal of business was disposed of and the following officers were elected for the ensuing year:

President—A. A. Connon.
Vice-president—J. D. Galloway.
Sec.-Treas.—Mrs. Fakeley.
Executive Committee—W. W. Anderson, Rev. T. D. Proctor, Miss Horbury and Cooper Wrinch.

DOMINION LINOLEUM

is appropriate in every room. Discriminating women everywhere adopt DOMINION LINOLEUM as part of the permanent furnishing scheme for their homes.
